Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 6 and 7, "said calibration tool" lacks antecedent basis. The claim should be amended to depend on claim 5.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Goto (US Patent No. 5138336).

With reference to Fig. 3 and the description starting at Col. 3, line 62 to Col. 4, line 36, Goto discloses a device for mounting a thermal print head, comprising:

a frame (31) including a reference member (upward bent portions of base 31); and
a multiplicity of adjustable datum points (set screws 34, 37) oriented orthogonally around
a mounting location for a thermal print head (22) , wherein said datum points are adapted

Art Unit: 2861

for adjustment to precisely position a thermal print head in said mounting location with respect to said reference member (turning set screws 34 adjust the position of the head 22 in the X direction while turning set screws 37 adjust the position of the head 22 in the Y direction perpendicular to the X direction with respect to the reference member).

Allowable Subject Matter

3. Claims 8-12 are allowed.
4. Claims 2, 3, 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: As to claim 8, prior art of record do not teach or suggest the claimed method. As to claim 2, prior art do not teach or suggest the claimed bias mechanism. As to claim 5, prior art do not teach or suggest the claimed calibration tool.
